

ACKNOWLEDGEMENTS

I would like to especially thank the principal, Ms.M.Miller-Difulvio, at Saint Mark Catholic School for her tremendous guidance and support during the implementation process of this research project. In addition, my appreciation extends to all the teachers who spent time in staff development and implementation of these procedures in their own classrooms. You have made your school a better place. The students and their parents thank you.

I would also like to thank my family, especially my husband, for supporting me during this project. Also, a special thanks extends to my close friends, Trisa, Cathy, and Joni who supported me when I needed their help during this project.

Finally, I am very grateful to Dr. Karen Wetherill for her guidance and assistance with this research. I thank her for her professional and supportive perseverance in helping me complete this personal endeavor.
