

Figure 11. No. of yolksac larvae produced per female ( $\times 10^3$ ) under different hormone treatments. Data represent means  $\pm$  standard error ( $N = 6-21$ ). Letter indicates hormone (L = LHRH-a, G = GnRH-a), number indicates dose ( $\mu\text{g}/\text{kg}$ ), and word indicates release rate (slow or fast). No significant ( $P > 0.05$ ) differences among treatments were observed.
