

Figure 12. No. of yolksac larvae per kg female body wt ($\times 10^3$) under different hormone treatments. Data represent means \pm standard error ($N = 6-21$). Letter indicates hormone (L = LHRH-a, G = GnRH-a), number indicates dose ($\mu\text{g}/\text{kg}$), and word indicates release rate (slow or fast). No significant ($P > 0.05$) differences among treatments were observed.
