# 2018 Faculty Scholarship Celebration

Western Carolina University holds a proud tradition of acknowledging and celebrating our faculty's scholarship and artistic works. 2018 marks the 29th year of this celebration and exhibit and the 31st year that the Hunter Scholar Award will be presented. This is also the 3rd year of recognizing the university's grant writers.

This year we are featuring works from 229 scholars created over the past year. These scholarly works include articles, books and book chapters, poster presentations, works of art and literature, musical performances, and much more. It is our goal that our academic community will be inspired by the many ways in which WCU's faculty express their creativity and contribute to human knowledge.
