Introduction to the Series

This transcription and its attendant annotations, explanatory material, and bibliography was prepared by students in ENGL 618: Research Methods in English, the required gateway class for the MA in English degree program at Western Carolina University (WCU). The learning outcomes for this class include the following:

1. Conduct appropriate, effective, and ethical scholarship.
   a. Effectively find and use advanced research tools (handbooks, databases, guides, bibliographies, etc.) appropriate to a subject.
      • Students will be able to use a wide variety of such tools and evaluate those tools.
   b. Find appropriate advanced research (print and electronic scholarship) and apply that research to specific disciplinary questions or issues.
      • Students will be able to find a variety of scholarship, evaluate both the appropriateness and rigor of that scholarship, and incorporate that scholarship correctly and effectively.
   c. Develop accurate bibliographies and reference citations.
      • Students will be able to annotate, abstract, and cite materials following standard MLA format.

2. Understand the process by which texts we use are made available.
   a. Students will be able to conduct basic editorial work and evaluate the editorial work of others.

All work is presented as submitted by the graduate students. While they take great care with their transcriptions and annotations, errors are possible. As they learn throughout this class, good scholarship requires meticulous research and corroboration by authoritative sources. Our objective is to provide transcriptions and annotations of WCU’s Special Collections materials that will be useful to the institution, students, scholars, patrons, and all users of our library’s resources.

Introduction to Document

This letter is a letter written from H. M. Misemer to his wife, Martha Misemer.

Many times, the author writes their ‘s’ as a vertically long and stretch out form of the letter. This could often be mistaken for a ‘f.’

Unless otherwise noted, words written in superscript indicate the two lines, formally called carrots, which mark the above insertion of a word, phrase, or number in the manuscript. When seen with words or phrases, this sign usually marks an afterthought of something skipped over or not written in logical, syntactic order due to haste. Also, superscript could indicate words written above the line or inserted above/between words that are not paired with a carrot in the manuscript.

Words will be spelled as written by the author in the original manuscript. Words that are hard to understand in the original spelling will include a footnote of the modern and/or correct spelling of the word.

Brackets ( [ ] ) will show logical inserts made by the transcriptor when the author leaves out small things, such as punctuation at the end of a sentence. Other breaks of modern, ‘proper’ grammar, such as subject-verb agreement, capitalization, and comma rules, will be overlooked and included in the transcription, so as to best maintain the voice of the writer.
